THE PROBLEM STATEMENT

Date	03-10-2022
Team ID	
Project Name	Personal Assistance for Seniors Who Are Self-Reliant

A medicine reminder app designed for people who frequently forget to take their medications. You may also keep track of your appointments. Its parental feature distinguishes it from other apps on the market ,allowing you to keep track of and remotely assist your loved ones who find it difficult to utilize such an app with their reminders.

Customer Problem Statement:

I am	Shanthi Age-52 I have low sugar and high blood pressure.
I'm trying to	Remind to take injectable glucagon for low sugar and enalapril,lisinopril,perindopril and Ramipril for high bp.
But	Life style challenges , patient in compatibility ,forgetting of medicine use, and non expert advice.
Because	Due to patient Forgot , it will risk health of patient.

Which makes me feel	Worry about patient health for careless of taking medicine due to forgotten.
