

Brainstorm & idea prioritization

Now days senior citizens are forgot to take medicine. So we are recommending personal assistance for senior who are self-reliant.

- 10 minutes to prepare
- 1 hour to collaborate
- 2-8 people recommended

Share template feedback

Before you collaborate

A little bit of preparation goes a long way with this session. Here's what you need to do to get going.

10 minutes

- A** Team gathering
Define who should participate in the session and send an invite. Share relevant information or pre-work ahead.
 - B** Set the goal
Think about the problem you'll be focusing on solving in the brainstorming session.
 - C** Learn how to use the facilitation tools
Use the Facilitation Superpowers to run a happy and productive session.

Define your problem statement

What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.

5 minutes

PROBLEM
Identify the solution to know the best solution for senior citizen who are self-reliant.

Sometimes the elderly forget to take their medication at the appropriate time. They also forget which medication He or she should take at that time. It is also difficult for doctors and caregivers to monitor patients around the clock. This medicine reminder system was created to address this issue. A user (caretaker) app is created that allows him to set the desired time and medicine.

Brainstorm

Write down any ideas that come to mind that address your problem statement.

10 minutes

TIP
You can select a sticky note and hit the pencil (switch to sketch) icon to start drawing!

DIVYA E

in a hazard situation, to notify the patient's nurse or doctor
Patient information should be kept secure.

Effectively reduce the heavy workload without adding more staff
Before the medication gets over, text Clinic.

ABINAYA S

Reminder makes it easier for people to take their medications on time.
The doctor can view the patient's medical history at any time.

Nowadays, applications are simple to use, even for the elderly.
We can securely send our prescription to any part of the world.

MARJUGAPARVEEN M

Obtain access to the hospital information system
Announcement of medication taking on time

SMS alerts are sent to the phone numbers of the caregivers.

IBM Cloudant Database

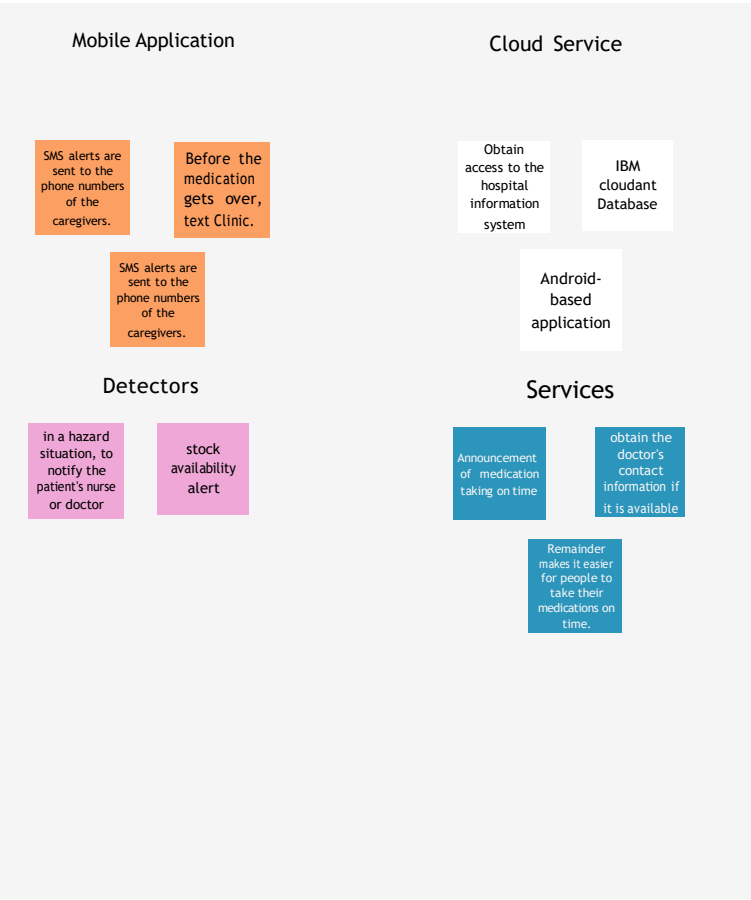

look for doctor disease vise
obtain the doctor's contact information if it is available

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. Once all sticky notes have been grouped, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you and break it up into smaller sub-groups.

20 minutes

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.
